

Fees

eCryptoBrokers offers two distinct charging methods depending on the type of account you hold. Portfolio Management clients are charged a flat performance fee on profits. OTC account clients are charged Transaction cost and Broker Fees on individual trade amounts and coins.

eCryptoBrokers

Portfolio Management

Our portfolio management service enables our clients to have an actively managed portfolio without the burden of constant decision making and is achieved by delegating the day to day decision making on what cryptocurrencies to buy and sell to our portfolio management team

Minimum Account Balance

£10,000

Fees

Performance fee – 20% of total profit applied at time of trade exits

Fiat Withdrawal Fee - £30 per withdrawal

OTC Brokerage Accounts

OTC Brokerage accounts are self-managed but our dedicated and trusted brokers buy and sell cryptocurrencies on your behalf but also help with wallet set-up and security to ensure you are set up to transact in the most safe and effective manner possible. OTC clients are not provided with market guidance in terms of recommended portfolio diversification or profitable positions.

Minimum Trade Value

£500

Fees

Transaction Cost – 4% (covers all exchange rate, execution fees and our fees)
